After Dog's Bite: Do's & Don'ts

Do's

Wash the wound with plenty of soap under running water upto 15 minutes

Consult your doctor immediately or visit to the nearest Govt. healthcare facilities

Complete the course of antirabies vaccination

In case of severe dog bites, rabies immunoglobins are recommended

Don'ts

Never ignore dog bite wounds

Do not apply chillies, mustard oil or any other irritant on the bite wounds

Do not apply dressing & do not get the wound stitched

Don't make assumptions, seek medical help as soon as possible
